

University of New Mexico-Taos Certificate in Culinary Arts

The Woodworking Certificate program provides technical woodworking skills in cabinet and furniture making and finish carpentry. This includes fundamental design and construction of simple furniture as well as safe use of hand and power tools. Students will learn basic joinery, hand carving and popular colonial furniture making techniques common to Spanish colonial furniture.

UNM-Taos reserves the right to make necessary changes as needed. *Students should consult with an advisor prior to enrollment.*
