The UNM-Taos School of Nursing has the full approval by the New Mexico Board of Nursing. UNM-Taos ADN program is nationally accredited by the Accreditation Commission for Education in Nursing.

August 2016
Welcome to the University of New Mexico – Taos School of Nursing!
The UNM-Taos School of Nursing was established in 2009 in order to provide an opportunity for members of the community to obtain an associate degree in nursing while meeting the need for registered nurses in rural northern New Mexico. The first class graduated in December of 2010 and since that time, three more cohorts have completed their associate degree in nursing at UNM-Taos.

In 2016, UNM-Taos adopted the New Mexico Nursing Education Consortium (NMNEC) statewide curriculum, allowing for seamless articulation between associate and bachelor degrees in nursing at participating NMNEC schools (www.nm nec.org). Students at UNM-Taos are admitted into either the associate degree or the dual associate/bachelor degree program. This handbook provides students with needed information and policies governing the associate degree program in nursing at UNM-Taos. Students who are dual-enrolled in the associate/bachelor degree program should also familiarize themselves with the policies contained in the UNM College of Nursing Undergraduate Student Handbook http://nursing.unm.edu/common/docs/current-students/bsn-handbook-sp-2016.pdf.

CHAPTER 1: UNM-TAOS AND UNM-TAOS SCHOOL OF NURSING
GENERAL INFORMATION

Introduction: Purpose of the Handbook
The Associate Degree in Nursing (ADN) Student Handbook has been developed to help students find the answers to common questions that arise as they progress through the associate degree program. This handbook does not constitute a binding contract between the UNM-Taos School of Nursing and the student, and does not supersede information and binding policies that are described in the UNM-Taos 2016-2017 Catalog and The Pathfinder – UNM Student Handbook. Policies and procedures included in this document are subject to change and may be superseded by changes in UNM policies.

Students in the School of Nursing are subject to the general policies, procedures, and specific regulations described in the appropriate sections of the UNM 2016-2017 Catalog http://catalog.unm.edu/catalogs/2016-2017/ and The Pathfinder – UNM Student Handbook http://pathfinder.unm.edu/index.html that are/were in effect at the time of admission or readmission. All students are responsible for compliance with the rules and regulations set forth in that catalog and handbook. In addition, important messages will be sent to you through your UNM email. Do not hesitate to contact the UNM-Taos School of Nursing Administrative Assistant or Director with additional questions.

INSTITUTIONAL CONTEXT

UNM-Taos operates as a branch campus of the University of New Mexico. As such, the campus is subject to the policies of the UNM Board of Regents, the regulatory guidance of the New Mexico Department of Higher Education and the State Legislature. Internally, the Administrative Team is responsible for supporting the day-to-day administration of the campus within the framework of the institutional mission and the policies of the University and the State. The campus is organized into four major units: Department of Instruction, Department of Student Affairs, Business Operations, and Grants & Special Initiatives.

August 2016
Mission
UNM-Taos provides quality educational opportunities that transform the lives of our students, enrich the cultural life of our diverse communities, and strengthen the regional economy.

Vision
UNM-Taos will be recognized in New Mexico and regionally as an educational leader and partner committed to providing a high-quality learning environment for all students, pathways to higher education, relevant, rewarding careers, and personal growth opportunities.

Purpose
As an open-access, student-centered, affordable college offering dual-credit, basic skills, transfer, career-technical, workforce training and lifelong learning courses and programs, UNM-Taos is committed to:

- Providing academic programs culminating in the awarding of associate degrees and facilitating transfer opportunities;
- Providing career technical programs leading to certificates and degrees for students who seek career-related employment in business, industry, government and health care;
- Providing opportunities for students to acquire the verbal, quantitative, and cognitive skills necessary for a successful transition into college-level study;
- Providing effective academic advisement and career counseling, diagnostic and placement testing, financial aid, and human development opportunities readily accessible to all students; and,
- Providing noncredit continuing adult education services to the community in business/professional training, personal development, cultural enrichment, and recreational activities.

Core Values
- **Respect for People:** Above all, we strive to create a safe, caring, and supportive environment conducive to the success and wellbeing of students, faculty and staff. We welcome diversity of backgrounds and opinions, recognize individual talents, encourage personal and professional growth, celebrate accomplishments, and honor institutional traditions.

- **Affordability:** We believe that all individuals deserve opportunities to reach their full potential through affordable education and training. As an open-access public institution, UNM-Taos strives to be the school of choice for all individuals pursuing postsecondary education.

- **Lifelong Learning:** We value and promote lifelong learning for students, faculty, and staff. We strive to create a student-centered learning environment that cultivates critical and creative thinking, problem solving, intellectual inquiry, and global awareness. Through continuing development, we expect faculty and staff to be productive workers, responsible decision-makers, and servant leaders. We believe that learning should occur at the organizational level through knowledge sharing and effective communication.

August 2016
- **Integrity, Responsibility, and Accountability**: We are collectively committed to advancing our mission ethically and responsibly to earn and preserve the trust of our constituents. We value fair and equitable treatment, participatory decision-making, and transparent resource management. We strive to develop an organizational culture that expects high performance and accountability for behaviors, actions and results in a collaborative spirit.

- **Excellence**: We embrace continuous quality improvement and innovation in all areas of the college. Faculty and staff strive to offer high quality programs and services that respond to the needs of the communities we serve and prepare students for successful careers in an increasingly diverse, global, and technology-driven workplace.

- **Teamwork**: We believe that cooperative relationships are critical to the vitality and long-term success of our institution. We strategically pursue mutually beneficial partnerships with institutions and organizations to help students learn and advance other institutional priorities. Internally, active collaboration within and between departments and operational areas is encouraged. We believe in the importance of nurturing student-to-student and student-to-faculty/staff interactions as a means of promoting student success.

**Institutional Goals**

- To ensure broad access to high-quality innovative educational programs, services and training opportunities for the residents of Taos County and Northern New Mexico.
- Improve student retention, persistence, completion and job placement.
- Ensure a safe, sustainable environment that promotes learning, communication, diversity and satisfaction among students, faculty and staff;
- Enhance our physical and technological infrastructure to support changes in the learning and work environment;
- Expand partnerships with regional colleges and universities to provide pathways to advanced degrees for Taos County residents.
- Optimize fiscal resources that support the needs and expectations of students and the community.
- Contribute to the economic vitality, workforce development, and job training needs of Taos County and the surrounding region.

August 2016
UNM-Taos School of Nursing Mission, Vision, and Core Values

Mission Statement
The UNM-Taos School of Nursing ADN-RN program, located in a rural setting in northern New Mexico, develops professional nurses to be knowledgeable and competent in caring for diverse populations.

Goals
Further, the nursing faculty is committed to implementing the School of Nursing Mission Statement by:
- Facilitating excellence in nursing preparation, education and support by preparing ADN-RN graduates for licensure in a rapidly changing health care arena in a technological age.
- Respecting individuality of students by recognizing and supporting each student’s unique qualities, culture, background, skills and styles.
- Providing a foundation for career and education mobility by fostering the development of decision making through the use of critical thinking, problem solving methods and utilization of the nursing process.
- Providing access to a quality education for a culturally diverse population in Northern New Mexico.
- Alleviating a critical nursing shortage in Northern New Mexico with a nursing program of superior quality.
- Establishing a learning environment that promotes the development of the core nursing values of caring, professionalism, communication, diversity, and clinical judgment.
- Enabling student success through a variety of educational and financial resources in the community.

Vision Statement
The UNM-Taos School of Nursing will be recognized for excellence in educating responsible, competent, highly qualified, knowledgeable, skills oriented, and caring registered nurses in Northern New Mexico.

Faculty Beliefs about Nursing
UNM-Taos School of Nursing faculty define nursing practice by using the American Nurses Association (ANA) 2010/2016 definition of nursing which states:
Nursing is the protection, promotion, and optimization of health and abilities, prevention of illness and injury, alleviation of suffering through the diagnosis and treatment of human response, and advocacy in the care of individuals, families, communities, and populations.
Core Values

➢ **Caring**: personal relationship that the nurse enters with the patient, ability to respond to human aspects of health and illness to promote healing and calm (Watson)

➢ **Communication**: a complex, ongoing, interactive process that forms the basis for building trusting interpersonal relationships that impacts the provision of health care (NMNEC, 2013) and incorporates **Collaboration**: A process by which nursing, interprofessional teams, and patients interact to foster open communication, mutual respect, and shared decision making to achieve best possible outcomes that reflect the particular needs of the patient, family, or community (NMNEC, 2013).

➢ **Diversity**: incorporates the NMNEC Participant Attributes Concepts of Diversity: Development, Functional Ability, Culture, Spirituality, and Health Disparities as well as those of the Health Care Participant: Individual, Family, and Community.

➢ **Professionalism**: incorporates the NMNEC Professional Attributes and the Care competencies: Professional Identity, Leadership, Ethics, Health Promotion, Patient Education, Advocacy, communication, Collaboration, Health Care Quality, Safety, Technology& Informatics, and Evidence.

➢ **Clinical Judgment**: “an interpretation or conclusion about a patient’s needs, concerns, or health problems, and/or the decision to take action (or not), use or modify standard approaches, or improvise new ones as deemed appropriate by the patient’s response.” (Tanner, CA (2006). Thinking like a nurse: a research based model of clinical judgment in nursing. *Journal of Nursing Education*, 45(6), 204.)
Diversity Statement

The faculty and staff of the UNM-Taos School of Nursing strive for students to experience an inclusive educational environment. Openness and respect for the diverse backgrounds and communities from which we each come enhance insight and learning. Therefore, we ask students to participate in conversations that raise the awareness of and respect for different ways of being and thinking. We invite you to please speak with the course instructor, another faculty member, or the Director if you experience discomfort with comments made in the classroom, laboratory, clinical, or other educational setting. Practicing these values enables us as a community of learners to be respectful of everyone.

August 2016
COSTS, FINANCIAL AID, SCHOLARSHIPS, AND LOANS

Costs
Nursing program fees are higher than those for other UNM-Taos programs. Information about the cost of both Resident and Non-Resident Tuition and Fees can be found on the UNM-Taos website http://taos.unm.edu/academics/nursing/cost.html. If you have any questions, please contact the UNM-Taos Financial Aid office at (575) 737-6215 or visit http://taos.unm.edu/student-enrollment/financial-aid/index.html.

FINANCIAL AID FOR NURSING STUDENTS

There are several financial assistance programs for qualified UNM-Taos students. The UNM-Taos Financial Aid Office is responsible for assisting students with finding financial resources through federal, state, and institutional funding programs to help pay towards the student’s Cost of Attendance (COA). Scholarships, loans, grants, and student work-study are awarded through this office. After your application information is processed, results are sent to the UNM-Taos Financial Aid Office. Contact the UNM-Taos Financial Aid office at (575) 737-6215 or visit http://taos.unm.edu/student-enrollment/financial-aid/index.html for additional information.

Nursing Financial Assistance Programs

The State of New Mexico Loan-for-Service Program
(http://www.hed.state.nm.us/students/nursing_lfs.aspx)
The Loan-for-Service Program through the New Mexico Department of Higher Education (HED) is restricted to students committed to working in an underserved area of the state upon degree completion. The loan funding is to assist students while enrolled in the School of Nursing. The student must be committed to this program. Penalties exist for breaking the agreement. The deadline for this program is July 1st of each year.

Nurse Corps Loan Repayment Program
(http://www.hrsa.gov/loanscholarships/repayment/nursing/)
The Nurse Corps Loan Repayment Program offers registered nurses substantial assistance to repay educational loans in exchange for service in eligible facilities located in areas experiencing a shortage of nurses. Authorized by Section 846 of the Public Health Service Act, as amended, the purpose of the program is to assist in the recruitment and retention of professional nurses dedicated to providing health care to underserved populations. For further information, please visit the Web site listed above.

New Mexico Center for Nursing Excellence (NMCNE)
(http://www.nm nursinge xcellence.org/)
NMCNE has financial resource information available to students and a link to various nursing scholarships and financial assistance. The NMCNE also offers students the opportunity to apply for their own Nightingale Scholarship annually with information and application available on their website.
New Mexico Department of Workforce Solutions
Workforce Innovation and Opportunity Act (WIOA): is a federally funded program that provides funding to qualified students pursuing a degree in nursing. Up to $5000.00 is available to be used for the cost of tuition, books, uniforms, and supplies. In order to determine whether or not you qualify for this funding, contact Luis Duran at the New Mexico Workforce Connection at 505-470-7952 or lduran@serifp.org.

Community Supported Scholarships
Lions Club Scholarship: http://taoslions.org/project_detail.php?id=17
Paige Lawson Scholarship: Via UNM-Taos Financial Aid Office or Student Success services
Holy Cross Hospital Community Scholarship: http://taoshospital.org/Services/scholarships
Los Alamos National Lab Foundation Scholarship: https://www.lanlfoundation.org/scholarships/HowToApply.html

STUDENT RESOURCES AT UNM-TAOS

Health Sciences at Rio Grande Hall
The School of Nursing is located in Rio Grande Hall, 121 Civic Plaza Drive, Taos, New Mexico. In the nursing area, the students have access to a classroom with state of the art audiovisual equipment. There is a nursing student lounge with ample study space, and computers and printers for student use. Lockers are available for student belongings. The general student area will be open during UNM-Taos business hours. The nursing lab has four hospital beds with skill manikins, two simulation rooms with hi-fidelity manikins, a nurse’s station, and a home environment where students will advance their clinical nursing skills and collaboration.

Center for Academic Success and Achievement (CASA)
CASA at UNM-Taos is dedicated to providing tutoring and supplemental instruction to help students succeed in their academic endeavors. CASA is a nationally certified program with the College Reading and Learning Association (CRLA). The tutors are trained according to national standards to uphold the criteria of CRLA. CASA follows the federal Family Educational Rights Privacy Act of 1974 (FERPA) guidelines, which protect students’ privacy. CASA provides student tutoring, study groups, and workshops geared towards academic success. For further information, please contact Diego Trujillo at 575-737-6211 or http://taos.unm.edu/student-success/casa/.

UNM Trio: The Federal TRIO Programs (TRIO) are Federal outreach and student services programs designed to identify and provide services for individuals from disadvantaged backgrounds. TRIO includes eight programs targeted to serve and assist low-income individuals, first-generation college students, and individuals with disabilities to progress through the academic pipeline. Contact UNM-Taos Trio at http://taos.unm.edu/home/trio-sss/.

UNM-Taos Library
The UNM-Taos library offers access to a large number of resources including research databases, periodicals, online collections, a virtual reference shelf, interlibrary loans, etc. Visit the UNM-Taos website for more information at http://taos.unm.edu/library/index.html.

August 2016
Student Government
The UNM-Taos Student Government performs with integrity, honesty, trust and inclusiveness. The Student Government Mission: To encourage and support student participation, to advocate and lobby on behalf of students, to facilitate alternative dispute resolution and to ensure individual and collective student rights. We intend to build constructive relationships among faculty, staff, students and our community at http://taos.unm.edu/home/student-government/.

Student Health and Counseling Center (SHAC) (Albuquerque)
Located on main campus, this center provides comprehensive primary medical care. It is available to all UNM students Monday through Friday. Information on hours, fees and services is available on the website http://shac.unm.edu/faq/htm.

Counseling Services
Located in the west wing of SHAC, Counseling Services provides assessment, referral, crisis and emergency interventions, therapy and medication services. Open Monday through Friday. Information on hours, fees and services is available on the website http://shac.unm.edu/counseling/index.html.

UNM-Taos Kid’s Campus
The UNM-Taos Kid’s Campus serves children 6 weeks to 5 years of age. They are licensed by the New Mexico Children Youth and Families Department and participate in the Aim-High quality rating system. UNM-Taos Kid’s Campus opened in spring of 2008 through a grant funded by Daniel’s Foundation. Kid’s Campus is located in the Kid’s Campus Building at the UNM-Taos Klauer Campus, 1157 State Rd 110, Ranchos de Taos, NM 87557. This state of the art facility was built with funds from two grants from the U.S. Department of Housing and Urban Development.

Phi Theta Kappa
The purpose of Phi Theta Kappa shall be to recognize and encourage scholarship among two-year college students. To achieve this purpose, Phi Theta Kappa shall provide opportunity for the development of leadership and service, for an intellectual climate for exchange of ideas and ideals, for lively fellowship for scholars, and for stimulation of interest in continuing academic excellence. https://www.ptk.org/Home.aspx

STUDENTS WITH DISABILITIES

In accordance with UNM Policy 2310 and the Americans with Disabilities Act (ADA), academic adjustments may be made for students with disabilities. Accessibility Services, at the Center for Academic Success and Achievement (CASA), coordinates accommodations and services. If you have a disability for which you may request academic adjustments and have not registered with their office, please do so as soon as possible. CASA is located on the Klauer Campus and can be reached at (575) 737-3695. For more information, visit the Accessibility Center on the website at http://taos.unm.edu/student-success/ada.html.
ADA COMPLIANCE AND REASONABLE ACCOMMODATION

The University of New Mexico Taos is committed to the recognition and the proactive pursuit of compliance with the Americans with Disabilities Act of 1990 (ADA). UNM-Taos makes reasonable accommodation to the religious observances/national origin practices of a student, an employee or prospective employee, and to the known physical or mental limitations of a qualified student, employee, applicant or program user with a disability, unless such accommodations have the end result of fundamentally altering a program or service or placing an undue hardship on the operation of the University. Qualified students, employees or program users with disabilities should contact the Office of Equal Opportunity or Accessibility Resource Center for information regarding accommodations in the employment and/or academic setting. To comply with the ADA and the Rehabilitation Act of 1973, UNM-Taos provides the information in this publication in alternative formats. If you have a special need and require an auxiliary aide and/or service, contact Accessibility Resource Office at 575-737-3695.

ACADEMIC DISPUTE

For course-related issues or questions, be sure to contact the course instructor first. If you have course or program questions or concerns that cannot be resolved at the level of the course educator or advisor or have course related issues – contact the program Director or level coordinator. For non-course related issues contact student services at UNM-Taos. The formal process for resolution of issues not otherwise resolved is described in the UNM Pathfinder under Campus Policies: Student Grievance Procedure. https://pathfinder.unm.edu/campus-policies/student-grievance-procedure.html

Students have the right to due process in academic matters. Procedures have been established to address complaints, disputes, or grievances of an academic nature initiated by a student enrolled in a UNM-Taos degree program. These procedures are followed for a variety of issues related to the academic process, including progression or alleged improper or unreasonable treatment.

FERPA

The Family Educational Rights and Privacy Act (FERPA), also known as the Buckley Amendment, is the federal statute that governs student educational records. Everyone who works with student records should be familiar with the law’s provisions governing students’ rights to limit disclosure of personally identifiable information. The Office of the Registrar offers a workshop that covers these aspects of the federal law, as well as our responsibilities to protect the confidentiality of student records. Questions regarding the application of the law in your particular area are encouraged. For more information go to http://registrar.unm.edu/privacy-rights/ferpa.html.

STUDENT ACADEMIC SUCCESS

Faculty members are available to students who may need assistance either to connect them to the appropriate service or department or to collaborate with other personnel to identify strategies to assist students. You are warmly invited to contact them about using effective study methods, managing anxiety, adjusting to nursing school in general, and many other subjects, according to your situation and interest.

The UNM-Taos School of Nursing has established the practice of holding mandatory Student Academic Success Sessions for you (SASSY), which will be held at regular intervals throughout the program. SASSY will include faculty led study sessions, group advising, time management, study skills and other relevant topics related to student success in nursing school.

August 2016
ESSENTIAL QUALIFICATIONS

The UNM-Taos School of Nursing has adopted criteria for student behavior, the *Essential Qualifications for Nursing Student Progression and Graduation* (Appendix D). These criteria set forth minimal expectations for behavior and practice capabilities for students in our associate degree program. To assure the public and potential employers regarding what they may expect from our graduates, we expect students to meet these *Essential Qualifications*. Upon admission you will read the *Essential Qualifications for Nursing Student Progression and Graduation* and will sign the *Student Form of Understanding*.

During the program, faculty who perceive your behaviors to either significantly exceed these expectations or to fail to meet the minimal standards, will document their observations as they relate to the *Essential Qualifications* using the *Remarkable Observation Form* (Appendix F). The goal is to use observations to assist you in modifying your learning goals. Students who grossly violate these minimal standards and who are not able to correct their performance with assistance from faculty may be prevented from progressing in the program in accordance with established due process within UNM-Taos. See ‘Behaviors Resulting in Probation or Dismissal’.

TECHNOLOGY REQUIREMENTS

There are technology requirements for students in the UNM-Taos School of Nursing. Students are required to have access to a computer for learning activities, access to required online resources, submission of assignments, and the writing of papers or other assignments. Computers are available for student use at Rio Grande Hall, UNM-Taos Library, and CASA.

WEB-ENHANCED COURSES: BLACKBOARD LEARN

Web Enhanced courses offered at UNM-Taos are delivered through course management software called *Blackboard Learn* or *UNM Learn*. All Nursing students must be proficient with *Blackboard Learn*. For Web Enhanced courses, students are granted access to *Blackboard Learn* on the first day the course is scheduled to begin.

A significant factor in the quality of the learning experience is the level of student engagement. It is important to keep up with class schedules, anticipate deadlines, and be prepared in the event of technical problems. Multiple resources are available in the Web Enhanced courses to assist with the course management system, *Blackboard Learn*. Technology support is offered via *UNM Learn*, [https://learn.unm.edu/](https://learn.unm.edu/). Faculty are available via e-mail and telephone during business hours for course related questions. Contact information for the faculty is available on the course syllabi.

IDENTIFICATION

Proper display of the UNM-Taos School of Nursing identification badge is required at all times when a student is in the UNM-Taos School of Nursing or during a clinical experience. (See Appendix K for student dress code.)

August 2016
The UNM-Taos ADN signifies that the holder of that degree has been educated to competently practice professional nursing. The education of a nurse requires assimilation of knowledge, acquisition of psychomotor skills and development of clinical reasoning. The practice of nursing emphasizes interdisciplinary collaboration among patients, physicians, nurses, pharmacists, and other allied health care professionals.

The curriculum leading to the ADN from this college requires students to engage in diverse, complex, and specific experiences vital to the acquisition and practice of essential nursing skills and functions. The curriculum is supported by the use of the current National League of Nursing (NLN) Outcomes and Competencies of Associate Degree programs which are reflected in the organizational framework, core values, student learning level outcomes and program outcomes. UNM-Taos is a member of the New Mexico Nursing Education Consortium (NMNEC). NMNEC is a team of education programs, organizations, and individuals with a deep commitment to excellence in nursing that results in high quality healthcare for all New Mexicans. Fall 2016 is the initial implementation of the NMNEC curriculum.

NMNEC Curriculum
Made up of educators across the state, the consortium is connected by a common nursing curriculum that allows students to receive quality education and bachelor degrees in their home community.

UNM-Taos/NMNEC Graduate Learning Outcomes
The graduates of the School of Nursing will:
1. Engage in professional nursing practice that is patient-centered and culturally appropriate for individuals, families, and communities.
2. Integrate principles of quality improvement and safety into nursing practice within health care organizations and systems.
3. Deliver nursing care that is evidence-based.
4. Demonstrate leadership behaviors through the application of policies that apply to health care delivery.
5. Engage in effective interprofessional collaboration in the delivery of health care for quality patient outcomes.
6. Utilize technologies for the management of information and in the delivery of patient care.
The UNM-Taos School of Nursing offers an Associate Degree in Nursing (ADN). Students who graduate from the School of Nursing are eligible to take the National Council Licensure Examination for Registered Nursing (NCLEX-RN®) for licensure as a Registered Nurse. The School of Nursing has full approval by the New Mexico Board of Nursing and national accreditation by the Accreditation Commission for Education in Nursing (ACEN).

The information age, technological advances, an aging population, and the growing inability to meet the health needs of our society dictate the need for change in health sciences education. The UNM-Taos/NMNEC curriculum represents a paradigm shift in nursing education. In the process of development, the faculty sought input and direction from national health reports, professional nursing organizations, and from faculty throughout the state. The following highlights the intention of the curriculum:

- A shift from a specialty or medical-based curriculum to a concept-based approach
- Incidence and prevalence used to make exemplar decisions
- Flexibility in clinical options based on geographical, clinical, and faculty availability, students’ interests, and needs
- Clinical experiences independent from didactic courses
- Simulation experiences to provide a safe learning environment and to assure competency in high risk, low volume, and/or high impact scenarios

Clinical experience progresses from fundamentals through health promotion, chronic, acute, complex, and integrative care. Clinical rotations are based in the community and in-patient settings, as well as simulation and public health experiences. Clients are individuals across the lifespan, families, and communities.

CONCEPT-BASED CURRICULUM

Concepts provide the foundation and structure the curriculum. Three general groups of concepts have been developed: patient attribute concepts, professional nursing concepts, and the health and illness concepts. All concepts are used throughout the curriculum. The context of application, however, may vary. Following is a list of the concepts developed and approved by NMNEC.
### Professional Nursing Concepts

August 2016
After successful completion of all pre-requisite courses, students who are admitted to the ADN program complete four consecutive semesters of nursing courses.

**LEVEL ONE**

NURS 202 Introduction to Nursing Concepts 3 credit hours
NURS 204L Principles of Nursing Practice 4 credit hours

**LEVEL TWO**

NURS 251 Health & Illness Concepts I 3 credit hours
NURS 203 Health Care Participant 3 credit hours
NURS 238 Nursing Pharmacology 3 credit hours
NURS 221L Assessment & Health Promotion 4 credit hours

**LEVEL THREE**

NURS 252 Health & Illness Concepts II 3 credit hours
NURS 291 Professional Nursing Concepts 3 credit hours
NURS 222L Care of Patients with Chronic Conditions 4 credit hours

**LEVEL FOUR**

NURS 253 Health & Illness Concepts III 4 credit hours
NURS 258L Clinical Intensive I 4 credit hours
NURS 219 ADN Capstone 2 credit hours

In addition to nursing courses, students are required to complete all remaining co-requisite and UNM-Taos core curriculum courses.

The functions identified in the *Essentials Qualification for Progression and Graduation Faculty/Student Evaluation Form* (Appendix E) and the *Remarkable Observation Form* (Appendix F) will be used every semester for student development and evaluation.

**UNM-Taos/NMNEC Curricular Map**

The *NMNEC ADN Curriculum Concepts and Exemplars* are listed in Appendix B. The table shows the level and course in which the concepts with their exemplars and populations are placed.
CHAPTER 4: GENERAL NURSING STUDENT REQUIREMENTS

THE CLINICAL EXPERIENCE

The clinical experience provides the student with the opportunity to apply the knowledge and skills acquired in nursing courses.

- Clinical experiences are provided in a variety of settings including laboratories, hospitals, schools, clinics, community agencies, and clients' homes.
- Clinical experiences may occur during day, evening, or nightshifts and any day of the week, including weekends and holidays.
- Clinical experiences expose the student to a wealth of learning opportunities. For this reason, consistent attendance in each clinical course is essential.

The information that follows is of extreme importance related to clinical course work.
(Appendix G: Essential Job Functions Required for Clinical, Appendix H: Professional Documentation for Clinical Students, and Appendix I: Health Clearance Form)

CLINICAL REQUIREMENTS

All students in the ADN program are responsible for providing and maintaining current professional documentation.

- Current records are required to attend clinical.
- Failure to maintain records may result in disenrollment.

You are responsible for keeping these updated by the first day of a clinical course or lose 10% of the course grade per week. You may not be able to attend clinical because of incomplete documentation. (See Attendance and Absence Policy.)

See Appendix J for a complete list of required immunizations.

Caregiver Criminal History Screening Policy
All students admitted to the UNM-Taos School of Nursing will be required upon admission to submit to a criminal felony screening at their own expense at a facility identified by the UNM-Taos School of Nursing. Clearance by the New Mexico Department of Health to work with patients with whom our students may come in contact will be required before a student can be considered in good standing for clinical activities.

The UNM-Taos School of Nursing, in cooperation with the New Mexico Department of Health, retains discretionary authority as to any action that may be taken in response to the criminal screenings.

Drug Screening
UNM-Taos ADN-RN program requires all students to have a negative drug screen upon acceptance into the program. Students can obtain a drug screen at Taos Physical Therapy on Sipapu Drive. This will need to be completed within 24 hours of signing the letter of intent and at the student's expense. Please note that if a valid result is not received, a repeat of the drug screen may be required at the student's expense.

August 2016
Substance Abuse Policy
UNM-Taos is committed to zero tolerance of the use of illegal drugs. Use of drugs, alcohol, or any other substances that could be injected, ingested or inhaled, and that could result in physical, mental, or emotional impairment may be grounds for dismissal from the School of Nursing. Any student suspected of being under the influence during class, lab, clinical, testing or any student activity will be asked to submit to a drug or alcohol test at the student’s expense.

The nursing faculty member will arrange for a UNM-Taos security staff member to transport the student to the testing site. Students who refuse to submit to the requested drug or alcohol testing will be sent home immediately. Depending on the circumstances this will result in a clinical, class, lab, or testing absence at a minimum, and may result in dismissal from the School of Nursing. Students who are tested and determined to be under the influence during class, lab, clinical, testing or any other student activity are subject to disciplinary action, up to and including dismissal from the School of Nursing.

If there is reasonable suspicion either in the classroom or clinical area, the following substance abuse policy will be followed:

- During the day, the student must appear for a drug screen at the Taos Physical Therapy (TPT) collection site on Sipapu Drive within an hour of suspicion.
- The student will be escorted by a UNM-Taos security staff (not faculty) member to the TPT collection site. The UNM-Taos staff member will be identified by a UNM-Taos nursing faculty member.
- If drugs are suspected, a blood draw will occur with a “rapid strip reading” taking place.
- If alcohol is suspected, a urine test is done for alcohol and drugs.
- Both tests will be done at the expense of the student.
- If the suspicion is after regular office hours, the “after hours” program from TPT will be implemented. The UNM-Taos faculty, instructor or designee will notify the staff person on call from TPT. The TPT member would come to the clinical site, classroom or lab where a blood draw or urine test will occur and testing done. Student privacy will be assured. Testing will be done at the expense of the student.
- If a drug or alcohol test is positive, the student will be counseled according to the Essential Qualifications Guidelines (Appendix D) and Remarkable Observation Form (Appendix F).
- The student will be referred to an appropriate drug or alcohol program or service. This assistance will be conducted at the expense of the student.
- If a drug or alcohol test is positive, it could lead to student dismissal or further random testing at the student’s expense.

Clinical Conduct Policies
Professional behavior is expected. Students should exhibit safe and honest behaviors at all times while in clinical. Preventing injury and ensuring patient or client safety is a necessary component of practice. Explicit instructions, both verbal and written, will be given during each clinical experience regarding both safe and unsafe behaviors.

August 2016
Faculty, as professionals and educators, must exercise judgment as to the behaviors and activities of the student in matters of safety. Nursing students are legally responsible for the same standard of care as a registered nurse. Students must be particularly aware of their limitations whether in ability, training, education or experience. Students not prepared to handle a clinical assignment, should refresh their memory through texts or other academic materials, or ask for help. The following is a list of clinical conduct that clinical faculty must report to the course coordinator. For a more comprehensive list of ethical principles and suggested codes of conduct refer to the National Student Nurses’ Association (NSNA) to help guide you toward professional development. NSNA's website is located at http://www.nsna.org.

The student must follow all of the professional and clinical policies of the affiliate agencies. Students who are in conflict or not following the agency’s professional and clinical policies will not be allowed into the clinical area or will be dismissed from the clinical area. The inability to comply with the affiliate agency’s policies may result in failure of the course.

**Clinical Conduct That Will Be Called Into Question**

1. Repeated incidents of being unprepared for clinical, lab or continued lack of improvement in clinical*
2. Any action that could endanger a life or interfere with recovery or maintenance of a client’s health*
3. Failure to immediately report a medication or patient-care error or incident to the faculty or nursing staff*
4. Charting of false information*
5. Any unprofessional behavior including any conduct while in any clinical or non-clinical facility which adversely reflects on the UNM-Taos School of Nursing
6. Violation of confidentiality or inappropriate communication
7. Persistent lateness or absenteeism
8. Coming to clinical while under the influence of drugs or alcohol
9. The use of foul language
10. Smoking is not permitted during clinical time including lunch and breaks
11. Cell phone use for personal communication, verbal or texting
12. Any other unprofessional behaviors as reported by your clinical faculty

The items indicated by the asterisks above (#1, #2, #3, #4) will result in permanent dismissal from the UNM-Taos School of Nursing.

**Clinical Medication Error Policy**

Medication errors are defined as any error related to the traditional six rights of medication administration. After identifying a medication error, students must report the incident to a clinical educator or preceptor.

*Failure to report to the faculty any and all clinical errors including medication errors will result in dismissal from the School of Nursing. Students may not fill out variance reports without faculty or preceptor supervision.*
In the event that a medication error occurs when you are with a preceptor, the preceptor will notify the faculty. If you make a medication error, you may be placed on probation. After the medication error, students may not give medications until successful completion of the following protocol:
1. Provide a written explanation of the reason for the medication error
2. Provide written information about how to correct the medication error
3. Provide written information on the medications given in error to include:
   a. classification
   b. adverse reactions
   c. nursing implications
   d. patient outcome

As a professional nurse, ethical behavior is imperative. Clinical rotations constitute part of the hands-on portion of the ADN academic program. The UNM Policy on Academic Dishonesty found in the UNM-Taos Student Handbook will apply to dishonesty in the clinical setting, as well as any of the other ramifications listed in this section.

Clinical Confidentiality Policy
Confidentiality is extremely important in the clinical setting. You are privileged to a vast amount of personal data when caring for individuals. For that reason, students must respect the patient’s privacy by not divulging information to unauthorized persons. Failure to maintain confidentiality is an offense that will result in counseling and possible dismissal from the School of Nursing. Students must sign and return the confidentiality statement included with each course’s syllabus.

Clinical Scope of Practice
Students may not perform the following activities:
- Take telephone or verbal physician’s orders
- Transcribe physician’s orders without direct supervision
- Witness consents
- Obtain or administer blood products without supervision of the faculty or primary staff registered nurse
- Prepare or administer IV medications without an instructor or preceptor present
- Perform unsupervised skills before being supervised and checked-off by faculty
- Operate hemodynamic monitoring equipment
- Remove subclavian, jugular or central venous access lines without supervision by faculty
- Remove arterial lines or chest tubes
- Administer medications before confirming the traditional six rights with preceptor or faculty
- Sign out narcotics without supervision
- Remove drains without supervision
- Insert IVs in children less than twelve years of age
- Administer medication to children without direct supervision and double checked by a second RN
- Assume responsibility for patient’s valuables
- Act as a primary circulating or scrub nurse
- Take unsupervised charge of a unit

August 2016
• Change setting on an infusion pump without a licensed person present
• Perform client teaching on procedures, surgery, diagnostics, discharge, and medications before clearing with faculty or preceptor
• Provide test results to client and/or the family without direct supervision
• Perform vaginal examinations related to labor without preceptor or instructor
• Complete or assist with variance reports unless directly supervised by faculty

STUDENT HEALTH INSURANCE AND PHYSICAL EXAMINATION

All students are required to carry health insurance throughout the program and to provide documentation of a recent (within 12 months) physical examination. The Health Clearance Form (Appendix I) must be completed upon enrollment in the School of Nursing.

NEEDLESTICK POLICY AND INSURANCE

Any needle-stick or other exposure to blood and body fluids during clinical must be reported immediately to the clinical instructor. It is very important that a medical evaluation take place immediately because treatment decisions must be made within two hours after exposure. The student must report to the emergency room at Holy Cross Hospital for treatment. A needle-stick insurance policy is mandatory and will be billed to the student’s account at a cost of $30.00 per term.

CLINICAL MALPRACTICE INSURANCE

UNM-Taos nursing students are required to purchase nursing student malpractice insurance. Proof of payment for the malpractice (liability) insurance is required before students go to clinical rotations. Nursing student insurance is offered through the Nurses Service Organization. The website is www.nso.com.

ILLNESS

The clinical instructor must be immediately notified of any illness, change in health status, pregnancy, or other condition that may affect your health or direct patient care during a clinical rotation.

SIGNATURE WHEN CHARTING

All pre-licensure students will follow their signature with SN, UNM-Taos when signing charting as part of all coursework.

August 2016
CHAPTER 5: STUDENT PROGRESSION

Definition of Terms
- **Progressing:** Full-time students who are successfully completing core and clinical courses as planned in the program of study
- **Failing:** Students who have failed a core or clinical course
- **Non-current:** Students who have stopped attending UNM-Taos for one or more regular terms
- **Non-progressing:** Students who are not enrolled in nursing courses, nursing prerequisites, or electives

Student Evaluation and Progression
1. Students must achieve an average on exams of 77% in order to pass a course, independent of scores earned in other areas of the grading rubric. Students who fail an exam will be required to consult with the course faculty and complete an Academic Success Plan to improve their grades. Additionally, an overall grade of 77% must be received for the course.
2. A dosage calculation exam is given every semester. Students must pass the exam at 90% before administering medications. A **maximum of two attempts are permitted in order to achieve a 90%**. Safe administration of medications is required in all clinical courses. Inability to administer medication for any reason, including failure of the dosage calculation exams is grounds for failure of the clinical course. (Appendix N)
3. A grade of C (77%) or better is needed in all courses for progression
4. A failing grade will not be rounded up to create a passing grade. For example, a 76.99% test or course average grade does not round to a 77%. However, any other passing grades may be rounded. For example, a 79.99% may be rounded to an 80% because it is already a passing grade.
5. Exam retakes for a better grade or extra credit are not offered in nursing courses.
6. Assignments will be lowered by 10% for each day the assignment is late. No assignment will be accepted if more than three (3) days late. For example, if a paper is turned in one day late with an overall grade of 83%, a reduction of 10% would equal a grade of 74.7%.
7. Unsafe behavior that endangers the safety or the confidentiality of a patient in the clinical setting may be grounds for immediate clinical failure
8. The following is the UNM-Taos ADN grading scale. Note that the grading scale is different than the UNM-Taos grade scale:
   - **A:** 90-100
   - **B:** 80-89
   - **C:** 77-79
   - **D:** 67-76
   - **F:** 00-66
9. Incomplete Grades: The School of Nursing adheres to the policy regarding incompletes ("INC") in the UNM-Taos catalog. Refer to the current issue of the catalog for more details.

---

**ASSESSMENT TECHNOLOGIES INSTITUTE (ATI) POLICY**

The UNM-Taos School of Nursing has adopted a comprehensive assessment and review program from Assessment Technologies Institute (ATI). The intent of this program is to provide students...
with the tools they need to be successful in the School of Nursing and on the NCLEX. This program utilizes the Content Mastery Series that consists of online review modules. Faculty will reference ATI content and incorporate learning exercises from modules into nursing courses. Students are encouraged to use the modules to supplement the required textbook for the course. ATI modules and tests are available for Fundamentals, Pharmacology, Mental Health, Pediatrics, Maternal Newborn, Adult Medical-Surgical, Leadership and Management, Community Health and the RN Comprehensive Predictor.

ATI is a component of the student’s grade in nursing classes. ATI provides both online practice and proctored tests. The practice tests are designed for student self-assessment and provide students with immediate question feedback and rationales. In order for the student to take the ATI proctored test, the student must have successfully completed the online practice test with a score of 80-95% or above score and provide printed proof of this as their “ticket” for admission to the proctored exam. The practice test may be taken several times in order to achieve the 80-95% score. The proctored tests allow faculty and students to determine student mastery of subject content. After completing the proctored test, the student receives a report indicating their proficiency level and which content areas will need to be reviewed.

Nursing faculty are able to obtain both individual and group test results. This information is valuable in evaluating teaching of course content as well as student performance. The ATI proctored tests must have allocated percentage in the grading rubric for the applicable nursing courses. Proctored assessments are administered as specified in the course schedule. Students are expected to achieve a score that equates to a minimum proficiency of Level 2 on any ATI assessment and with the results to develop a focused remediated plan using an ATI remediation template. The instructor will evaluate this remediation prior to the second proctored exam.

Students must also complete a second practice exam and achieve a score of at least 90-95%. The second practice test may be taken several times in order to achieve this score. Completion of focused remediation using the ATI remediation templates is required before entrance into the second proctored exam. Completion of the ATI component of the course is mandatory in order to pass each course. All failure and progression policies delineated in the student handbook apply.

ATI NCLEX-RN® Success Predictor Test
At the end of the fourth semester, a comprehensive ATI Predictor Examination will be given. This examination predicts the probability that you are likely to pass the national licensure exam, NCLEX-RN, if you were to take it at that moment. The predictor exam will be taken twice. After the first predictor exam, an individual focused review is required for remediation before taking it again.

**WITHDRAWL POLICY**

Students who stop or withdraw in good standing from the School of Nursing will be considered for the next cohort. Notice in writing is required and the student is encouraged to seek individual advisement prior to withdrawing or reapplying to the UNM-Taos School of Nursing. The student must reapply and meet all of the current requirements for that class. Upon readmission, the student must start the program from the beginning. Alternatively, a student may choose to attend another NMNEC school.

August 2016
CHAPTER 6: ACADEMIC POLICIES AND REGULATIONS

The general academic regulations of UNM-Taos are found in the UNM-Taos Student Handbook, http://taos.unm.edu/catalog/academic%20regulations.html. Students are responsible for knowing and meeting these regulations.

ADN/BSN track students are held to the standards in this handbook as well at the UNM College of Nursing Undergraduate Student Handbook. In the event that these two documents are not in alignment, the more restrictive policy will supersede until UNM-Taos School of Nursing and UNM College of Nursing Leadership can review the policies.

ATTENDANCE AND ABSENCE POLICY

The UNM-Taos School of Nursing, in compliance with the academic regulations of UNM-Taos, follows the attendance and absence policies as described in the UNM-Taos Student Handbook. Several topics listed here contribute to a professional classroom and lab:
- Students are expected to attend every class
- More than two (2) absences in a 16-week course will result in the student being counseled
- Any further absences may result in dismissal from the class
- For other obligations such as jury duty, active military services or reserves services, accommodations will be made upon verification of those obligations.
- Excessive Lateness in Class and Clinical
  - Five (5) minutes is considered late.
  - Three (3) times in 16 weeks: The student will be counseled with a verbal warning and a written Remarkable Observation Form related to professionalism.
  - Any further lateness may result in dismissal from the class.
  - Leaving classes or clinical early will be treated the same as lateness.

Clinical/Lab attendance is mandatory. If an emergency prevents you from attending, contact your clinical instructor prior to the lab or clinical experience. The first no-show, no-notification or unexcused absence may be grounds for failure and a Remarkable Observation will be placed in the student’s file. Any subsequent no-show, no-notification or unexcused absence is grounds for immediate failure. Clinical make-up for unavoidable absences, as determined by the course faculty, is at the discretion of the course faculty. Clinical makeup may include additional clinical hours, written work, and/or simulation. Failure to complete the makeup assignments will result in course failure. Missing scheduled times compromises your ability to demonstrate attainment of the clinical objectives required to pass the course.

Students are expected to arrive and be fully prepared to participate in clinical at the designated time. Students are to remain in the clinical area until dismissal. There are some circumstances under which students should not be in the clinical setting. These include, but are not limited to, hospitalization and communicable illnesses. The student must notify the clinical faculty prior to the absence.

August 2016
Weather Situations
- In the event the university is closed or delayed, it will be reported on KOAT 7, KOB 4, KRQE 13, online Taos News as well as the UNM-Taos snow line at 575-737-6222.
- LoboAlerts is the University’s emergency text messaging system used to provide safety and weather alerts. All users should review their contact information and add additional emergency contact information as necessary at https://loboalerts.unm.edu/.
- Closure of school will be announced as “UNM-Taos campus closed.” The entire campus will be closed and no classes will be held.
- If inclement weather presents during a class or clinical day, the UNM-Taos school closing schedule will be followed.
- Class cancellation refers to classes being cancelled, and usually the rest of the campus is open for service.
- Cancellation during clinical time will require make up of clinical time and/or the assignment of a project related to the clinical material.
- **The 2-hour delay does not apply to clinical time or assignments.**
- The student will need to notify the School of Nursing of tardiness and give estimated time of arrival.
- Clinical make up time will be at the faculty’s discretion.
- See “The Pathfinder” for overall University policy.

### DISHONESTY IN ACADEMIC MATTERS

See the UNM-Taos Student Handbook for explanations and consequences. One form of academic dishonesty, which is sometimes not recognized by students, is plagiarism, or the failure to acknowledge the source of materials used in written papers. In addition to being honest with tests and assignments, students must be honest about the source of materials they quote or paraphrase in written papers.

**Grievance Procedure**

Students have the right to due process in academic matters. Procedures have been established to address complaints, disputes, or grievances of an academic nature initiated by a student enrolled in a degree program at The University of New Mexico. These procedures are followed for a variety of reasons related to the academic process, including progression or alleged improper or unreasonable treatment.

Prior to doing so, students must follow these steps.
- If the student disagrees with a clinical evaluation, assignment, project grades or other actions, the student must:
  - Write a statement explaining your disagreement and attach any supporting documentation.
  - Meet with the faculty or instructor involved.

August 2016
- Consult with an academic advisor as necessary.
- Initiate the above process within 5 working days of the identified conflict.
- If this process does not resolve the conflict, the student must:
  - Meet with the Director of Nursing for mediation.
  - Initiate the above process within 10 working days of the identified conflict.
- If the disagreement cannot be resolved with the nursing director, it will be referred to the Dean of Instruction.

If the process still remains unsatisfactory and you wish to continue the matter, the next step would be to file a grievance petition in accordance with the UNM-Taos grievance policy.

**BEHAVIORS RESULTING IN PROBATION OR DISMISSAL**

Any student may be reprimanded, suspended, and/or dismissed from the UNM-Taos School of Nursing for conduct involving his or her attitude or competency that jeopardizes patient care or safety at any time. This conduct may include behaviors that are disruptive, disrespectful or ones that prevent desirable relationships within the School of Nursing including its classrooms, buildings, and the grounds surrounding the School of Nursing. Behavior that interferes with another student’s morale or ability to learn may result in dismissal. Behavior that interferes with affiliate agencies, staff, faculty, and or the community may result in dismissal from the School of Nursing. UNM-Taos nursing faculty have the authority, with the written consent of the Nursing Director, to suspend any student for violations of the policies stated in this handbook.

**Behavior Policy**

A) The student is responsible for their own behavior and learning in the classroom and clinical areas. The faculty is responsible for promoting a classroom milieu that is conducive to learning. Student conduct disrupting this environment will not be tolerated and will be seen as a serious infraction upon everyone in the classroom. The faculty may remove a disruptive student at the faculty member's discretion. Emotional responses that inhibit learning and/or functioning within the learning environment or clinical area may be cause for dismissal from the School of Nursing.

B) Students must behave in a professional manner with all participants of the School of Nursing, faculty, staff, and with all clinical personnel at all times. This behavior includes personal responsibility, courtesy, honesty, ethical actions and responsible interpersonal behavior.

C) Academic dishonesty such as cheating on exams, homework, assignments, readings, papers, presentations, computer research, in any way via auditory, visual, verbal, physical and/or electronic means is cause for dismissal from the School of Nursing. Academic dishonesty is seen as a breakdown in your professional development and will be handled immediately according to UNM-Taos policies on academic dishonesty as found in the UNM-Taos Student Handbook.
CHAPTER 7: PINNING CEREMONY, GRADUATION, AND COMMENCEMENT

UNM-Taos grants an Associate Degree in Nursing (ADN) to the student who has successfully completed the School of Nursing. All requirements for the School of Nursing must be satisfied before the degree is issued. During the third semester of the School of Nursing, students will be responsible for meeting with the nursing director to address any other deficiencies in the required course work and complete a petition for graduation.

The graduation ceremony for the UNM-Taos School of Nursing takes place in May of every other year. Each graduating class decides whether to have its own pinning ceremony. The type of ceremony, theme, process, timing and all other details about pinning ceremonies are at the discretion of that graduating class.

Applying for Licensure
During level four, students should go to the Board of Nursing of the state in which they would like to apply for licensure in order to initiate the appropriate application process. The New Mexico Board of Nursing contact information can be viewed at http://nmbon.sks.com. Application for licensure should be submitted within twelve months of graduation.

NOTE: Students taking the NCLEX-RN® within the first three months of graduation are more likely to pass on the first attempt.

Disclaimer Statement
The content of this handbook is provided for the information of the student. It is accurate at the time of printing and is subject to change as deemed appropriate by the School of Nursing in order to fulfill its role and mission or to accommodate circumstances beyond its control. The School of Nursing reserves the right to make changes in policy, regulations, and fees, as circumstances dictate, subsequent to publication. The School of Nursing expects its students to have knowledge of information presented in this handbook and in any other college publications. Any such changes may be implemented without prior notice and without obligation and, unless specified otherwise, are effective when made.

The School of Nursing reserves the right to terminate programs or modify program requirements, content, schedule, delivery methods, and the sequence of the program offerings from semester to semester for educational, financial or other reasons beyond the control of the school or School of Nursing.

Completed August 2016: MW, KO, DMK

APPENDIX D
ESSENTIAL QUALIFICATIONS FOR PROGRESSION AND GRADUATION

The University of New Mexico Taos Associate Degree in Nursing signifies that the holder of that degree has been educated to competently practice professional nursing. The education of a nurse requires assimilation of knowledge, acquisition of skills, and development of judgment. The practice of nursing emphasizes interdisciplinary collaboration among patients, physicians, nurses, pharmacists, and other allied health care professionals.

The curriculum leading to the ADN from UNM-Taos requires students to engage in diverse, complex, and specific experiences essential to the acquisition and practice of fundamental nursing skills and functions. Unique combinations of cognitive, affective, psychomotor, physical, and social abilities are required to satisfactorily perform these functions. In addition to being essential to the successful completion of the ADN, these functions are necessary to ensure the health and safety of our patients, fellow students, faculty, and other health care providers.

The essential proficiencies necessary to acquire or demonstrate competence in a discipline as complex as nursing and needed for progression by students for the ADN at UNM-Taos include but are not limited to the following abilities:

Communication
The student must communicate in English effectively and sensitively with fellow students, faculty, staff, patients, family, and other professionals. The student must express ideas and feelings clearly and demonstrate a willingness and ability to give and receive feedback. Students must be able to: convey or exchange information at a level allowing development of a health history, identify problems presented, explain alternative solutions, and give directions during treatment and post-treatment. The student must be able to converse effectively in English, both in oral and written forms, and synthesize and communicate information on the patient’s status accurately and efficiently, seeking additional guidance and supervision when appropriate.

Behavioral/Emotional
A student must possess the emotional health required for full utilization of intellectual abilities, exercise of good judgment, and prompt completion of all responsibilities attendant to his/her education and the care of patients, families, and communities. In addition, the student must be able to maintain mature, sensitive, respectful, and effective relationships with patients, students, faculty, staff, and other professionals under all circumstances, including highly stressful situations. Students must have the emotional stability to function effectively under stress and to adapt to an environment that may change rapidly and without warning and/or in unpredictable ways. Students must be able to experience empathy for the situations and circumstances of others and effectively convey that empathy. Students must understand that personal values, attitudes, beliefs, emotions, and experiences affect perceptions and relationships with others. Students must be able and willing to examine and change behavior when it interferes with effective patient care or student and team relationships. Students must possess the skills and experience necessary for productive and collaborative relationships in diverse academic and working environments.

August 2016
Professional Conduct
Students must possess the ability to reason morally and practice nursing in an ethical manner. Students must be willing to learn and abide by professional standards of practice. Students must possess attributes that include compassion, empathy, altruism, integrity, honesty, responsibility, accountability, and tolerance. Students must be able to engage in patient care delivery in all settings and be able to deliver respectful care to all patient populations.
APPENDIX E
ESSENTIAL QUALIFICATIONS FOR
PROGRESSION AND GRADUATION
FACULTY / STUDENT EVALUATION FORM

August 2016
UNM Taos ADN-RN Program
Essential Qualifications for Progression & Graduation
FACULTY / STUDENT EVALUATION FORM

The UNM Taos ADN-RN program signifies that the holder of that degree has been educated to competently practice professional nursing. The education of a nurse requires assimilation of knowledge, acquisition of skills and development of judgment. The practice of nursing emphasizes interdisciplinary collaboration among patients, physicians, nurses, pharmacists, and other allied health care professionals.

The curriculum leading to ADN-RN requires students to engage in diverse, complex, and specific experiences essential to the acquisition and practice of essential nursing skills and functions. Unique combinations of cognitive, affective, psychomotor, physical and social abilities are required to satisfactorily perform these functions. In addition to being essential to the successful completion of the requirements of the ADN, these functions are necessary to ensure the health and safety of patients, fellow candidates, faculty and other healthcare providers.

Student Name:

PLEASE NOTE: If any Essential Qualification is not being met, specific written documentation must be attached to this evaluation form. The essential abilities necessary to acquire or demonstrate competence in a discipline as complex as nursing and needed for successful progression by students for the ADN-RN in this program include but are not limited to the following abilities:

**KEY:**  
M = Meets  
DN = Does Not Meet  
NA = No Opportunity to Demonstrate  
P = Progressing

<table>
<thead>
<tr>

</table>
Guidelines for Use:
The Remarkable Observation form is available to document compliments and/or concerns that you as a faculty or staff member may have regarding a student. Staff members that are seeking to utilize these forms need to discuss with the assigned Faculty Advisor prior to implementation. Alternative resources available for individual concerns include: Course Coordinators; Level Coordinators and/or Faculty Advisors. See below for a description of how this form may be used:

a. Feedback will be given to the student immediately.
b. If it is a major concern, the student, Faculty Advisor, Course Coordinator, Division Director and other appropriate faculty will meet promptly to develop an action plan. This signed agreement will be placed in the student's file. The outcome of the action plan will be evaluated and documented for the student file.
c. If the concern does not need immediate attention, or it is a compliment, the form will be placed directly in the student's file.
d. This form does not replace clinical notes, clinical evaluations, or other forms of grading. It is expected that most teaching/learning interactions will not be documented in this way.
e. Remarkable Observation forms will be kept in the student's file in Faculty Support, with their Essential Documentation forms.
APPENDIX G
ESSENTIAL JOB FUNCTIONS FOR CLINICAL ROTATIONS

Essential Job Functions for Clinical Rotations
Physical activities required for essential functions of the position:

- **Standing/Walking:** Standing and walking is required for the majority of time spent in the clinical area (6-12 hours). Standing in one position is required while performing certain aspects of patient care. Walking occurs on vinyl, tile, linoleum, or carpeted floors.

- **Sitting:** Sits while charting or entering data into a computer. May also sit while receiving/giving verbal report at start/end of shift. May also sit during breaks and meal period. Total sitting is less than two hours for each eight-hour shift, depending on clinical assignment.

- **Lifting:** Regularly lifts medical supplies, medications, patient supplies, patient charts, weighing up to ten pounds. Also lifts CPR equipment and other medical equipment weighing up to 44 pounds. Required to assist in lifting and transferring patients of varying weights and is expected to request assistance when lifting, ambulating and repositioning patients. Must be able to support at least 75 pounds to reposition, transfer, and ambulate patients safely.

- **Carrying:** Frequently carries medical supplies and other items weighing up to 44 pounds. Occasionally carries certain medical equipment weighing up to 50 pounds.

- **Pushing/Pulling:** Pushing/pulling 71-100 pounds is required when administering patient therapy and care, as well as when pushing equipment such as oxygen tanks and monitors, and when transporting patients in wheelchairs, beds, or gurneys. Pushing required at 3.5 pounds of pressure when administering CPR. Full manual dexterity of both upper extremities required.

- **Climbing:** No significant climbing is required, may be required to climb a step stool.

- **Bending:** Required when administering patient care. Must be able to bend to touch floor to remove environmental hazards.

- **Crawling:** Not required.

- **Reaching:** Reaching above head required when performing aspects of care such as hanging and adjusting IV bags.

- **Squatting/Kneeling:** Required when operating medical equipment and performing aspects of patient care, such as CPR.

- **Twisting:** Twisting at waist required when bathing patients and performing other procedures.

- **Speaking:** Must be able to clearly speak English to communicate, assess and educate patients/families. Must also be able to communicate verbally with physicians and other professionals involved in patient care.

- **Hearing:** Must have normal hearing (aide permitted) in order to perform physical assessments, including listening with a stethoscope for bowel, heart, and lung sounds. Must also be able to hear to detect subtle yet critical information regarding patient condition including alarms and to communicate with physicians and other professionals involved with patient care. Normal hearing required for discussion with others by telephone.

August 2016
- **Visual Acuity:** Required within normal limits (glasses or contacts permitted) for monitoring equipment, reading medical data, preparing and administering medications and injections, performing physical assessments of patients including subtle changes in color.

- **Depth Perception:** Required for fine tasks such as administering injections, sterile catheter insertions (urinary, IV), nasogastric tube insertions.

- **Fine Motor Skills:** Must have fine motor skills of all fingers and be able to grasp and control medical equipment and to perform precise procedures such as sterile dressing changes. Must be able to grasp objects such as a pen to prepare handwritten reports.

- **Tactile Sensation:** Must be able to assess patients through palpation with fingers and hands; must be able to distinguish warm/cold and be able to feel vibrations.

- **Smell:** Must have normal sense of smell to detect odors indicating unsafe conditions or changing patient status.

- **Driving Required:** Students are responsible for their own transportation to and from affiliating clinical agencies.
APPENDIX H
PROFESSIONAL DOCUMENTATION FOR CLINICAL SETTINGS

All students in the UNM-Taos School of Nursing are responsible for completing the requirements listed below. Students are responsible for providing and maintaining current professional documentation. Current records are required to attend clinical, and failure to maintain records may result in disenrollment.

The following must be completed prior to starting a clinical rotation:

**MMR (Measles/Mumps/Rubella):** Requirement is met if you have one of the following:
- Immunization record listing two MMR shots after 12 months of age
- A blood test for immunity to measles, mumps, and rubella

**Tetanus-Diphtheria-Pertussis (Tdap):** One dose vaccination is required. Documentation of booster must be within 10 years.

**Hepatitis B:** Series of three injections and post-completion titer takes approximately 4-7 months to complete. Entering students are required to have at least the first 2 injections of the series prior to starting clinical.

**Varicella (Chickenpox):** Requirement is met if you have one of the following:
- Proof of immunity by titer
- Proof of 2 doses of varicella vaccine

**Influenza:** Seasonal influenza vaccine is required.

**Tuberculosis:** Initial two step PPD is required and annual screening. If history of positive PPD or history of receiving bCG vaccine, one time documentation of chest x-ray and completion of treatment if applicable.

**Urine Drug Screen (10 Panel):** To be completed at Taos Physical Therapy or a facility of your choice within 24 hours of acceptance into the School of Nursing

**BLS (Basic Life Support):** American Heart Association Healthcare Provider current throughout the School of Nursing

**OSHA/Bloodborne Pathogens – Annual Update:** External OSHA certificate for healthcare providers can be accepted. Training can be completed online at: https://learningcentral.health.unm.edu/learning/user/login.jsp
Browse Catalog > Search “Bloodborne”>Complete Bloodborne Pathogens module

**HIPAA – Annual Update:** More frequent updates may be required. Must be taken through UNM Learning Central. Log on to https://learningcentral.health.unm.edu/learning/user/login.jsp and follow the directions.

August 2016
Note: To print certificates for completed Bloodborne Pathogen and HIPAA trainings, find "Learning History" in Learning Central, hover over the module link and then click on "Print Certificate" in the popup.

**Proof of Caregivers Criminal History Screening**
The School of Nursing Director will meet with all students who have been accepted into the School of Nursing to enter them into the CCHSP database. Students must bring a valid driver's license in order to be entered into the database.

**To submit updated immunizations, 10-panel drug screen results, BLS card, OSHA and HIPAA certificates and clearance letter:**
- You may fax documents to Barb Wiard at 575-737-3746
- Scan documents and attach to an email: bwiard@unm.edu
- Mail to:
  - Barb Wiard
  - UNM-Taos School of Nursing
  - 1157 County Road 110
  - Ranchos de Taos, NM 87557
- Or, bring to Barb Wiard's office in Health Sciences at Rio Grande Hall

"We strongly advise that students keep copies of all professional documentation (immunizations, drug screenings, BLS, HIPAA, and OSHA) for their own records. The UNM-Taos School of Nursing will not make copies of documentation after it has been submitted. Students who lose their records will have to return to the original source to replace them."
HISTORY AND PHYSICAL EXAMINATION FORM
This form should be filled out by the student and by the examining practitioner. You must answer all questions even if the answer is NO, NONE, or N/A. Mail or fax to the above address.

Name: _______________________________ Gender: Male/Female/Other

Home address _______________________________ Telephone _______________________________

City/State/Zip _______________________________ Country of birth _______________________________

Email ___________________________________ Birth date _______________________________

Person to notify in case of emergency _______________________________ Telephone _______________________________

Health Insurance Company _______________________________ Policy # _______________________________

PAST MEDICAL HISTORY
Describe any past history of medical/surgical illness _______________________________

Please indicate any acute or chronic medical conditions _______________________________

Do you have or have you had any history of a mental health disorder? ______ Please explain _______________________________

Please describe any allergies to medications, foods, or other substances _______________________________

Do you take any medications on a regular basis? _______ Please specify _______________________________

Do you now or have you in the past habitually used drugs or alcohol? _______________________________

I CERTIFY THAT THE ABOVE STATEMENTS ARE TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE.

Applicant’s Signature _______________________________ Date _______________________________

(OVER)
TO BE COMPLETED BY EXAMINING PRACTITIONER

To the examining practitioner. Please review the history on the reverse side of this form and add any pertinent information.

PHYSICAL EXAMINATION

_________________________ has had a complete history and physical examination on _________________________. Blood pressure _______________ Height _________ cm Weight ______ kg

Findings are as follows:

I find the applicant to have a history of the following medical or surgical conditions: ________________________

_____________________________________________________________________

I find the applicant to be in good physical and mental health with no condition necessitating the continuation of care.

I find the applicant has the following health condition for which continuation of care is required or which may adversely affect his/her educational experience. (If continued care is required, a complete description of the condition and care required should be included)

_____________________________________________________________________

_____________________________________________________________________

Except as noted, the above student is in good physical and mental health and has no problem that might interfere with his/her ability to pursue professional nursing studies.

| Tetanus/Diphtheria/Pertussis (TdAP) | - Must have completed primary series of Tetanus/Diphtheria (Td) as a child. If you don't have proof of a primary Td series ≥3 doses you will have to receive a 3 dose primary series. Please include photocopy proof of the primary series dates. **AND**  
- We require one dose of TdAP vaccine once during adulthood. For this adulthood dose to be considered valid you must have been over 18 years of age when you received it.  
- If you have had your adulthood dose of dTap more than 10 years ago you must be re-immunized. | Primary series completed: ☐ Yes ☐ No  
**Date of last dose of TdAP:** ____________  
(Month/Day/Year) |
| Measles/Mumps/Rubella (MMR) | - Must have DOCUMENTATION showing two doses of measles and mumps containing vaccine.  
- Please note a blood titer for mumps is NOT CONSIDERED VALID and will not be considered as proof. Thus, if you have no documentation for mumps you will need to be revaccinated.  
- It is ok if the measles, mumps, and rubella antigens have been given separately.  
- Vaccination for MMR needs to be given after 1st birthday to be considered valid. | **MMR #1:** ____________  
(Month/Day/Year)

| Date of Chest X-ray: (Month/Day/Year)                                                                               |                                                     |
| Result: □ Positive □ Negative                                                                                       |                                                     |
| **Seasonal Influenza**                                                                                               | Each fall you will be required to submit proof of your new seasonal influenza vaccine |
APPENDIX K
STUDENT DRESS CODE FOR CLINICAL COURSES

The UNM-Taos dress code is based on the reality that, as nurses, we are caring for a very diverse and often aging population. It is important that patients feel respected, safe, and comfortable. An overall appearance of neatness is key. Your clinical instructor’s judgment regarding the appropriateness of your appearance must be respected.

Uniform

*Inpatient Clinical:* UNM-Taos nursing students may wear the designated uniform only in nursing school approved clinical settings and activities. The nursing student is required to purchase one uniform and badge. The uniform consists of:
  - White Top (a long sleeve white shirt may be worn underneath)
  - Navy Blue Pants or Skirt that is knee length
  - White or navy blue nursing jacket.
  - White shoes
  - White socks over the ankle
  - The nursing patch is attached on the left shoulder of the top and jacket
  - Nursing student ID Badge on the upper left side of top or jacket.
  - UNM-Taos nursing jacket may be worn to pick up patient assignments in lieu of uniform.
  - **You must wear professional attire under the nursing jacket if you opt to wear it in lieu of your uniform to pick up patient assignments.**
  - Uniforms must be clean and wrinkle-free

*Community Clinical:* Khaki slacks (Women: [http://www.dickies.com/pants/womens-original-774-work-pant/fp774.html?dwvar_FP774_color=KH#start=1](http://www.dickies.com/pants/womens-original-774-work-pant/fp774.html?dwvar_FP774_color=KH#start=1) Men: [http://www.dickies.com/pants/original-874-work-pant/874.html?dwvar_874_color=AF#start=1LINK](http://www.dickies.com/pants/original-874-work-pant/874.html?dwvar_874_color=AF#start=1LINK)) (Dickie’s brand, 4-pocket max, no cargo pants, clean and unstained) or a khaki skirt that is knee length or longer and relaxed fit vs. form fitting, 4-pocket max, clean and unstained with navy blue collared polo shirt with UNM-Taos Nursing Student logo (supplied by Dove). Closed toe flat shoes: clean, solid color (brown, tan, or black).

**Accessories**

- Jewelry should be kept to a minimum. Large, dangling ear hoops or necklaces are NOT appropriate. One pair of earrings only, flat to the earlobe is acceptable. Rings with stones can tear gloves or patients’ skin and may not be worn. Facial piercings are not appropriate for patient care. Medic alert bracelets are acceptable.
- Tattoos and piercings other than earlobes should be covered. A long white sleeve undergarment may be worn under scrub top to cover tattoos. A turtleneck or a type of concealer makeup may be necessary for some tattoos.
- No facial jewelry, no piercings, no nose rings, no eyebrow rings
General Appearance
- Neat, tidy, and professional appearance at all times, including under nursing jacket
- Fingernails must be cut short; no nail polish due to evidence-based practice standards.
  No false nails.
- No perfume, scented lotions, scented hairspray, or tobacco odor.
- No chewing gum.
- Hair must be clean, restrained (not loose), away from the face, and off the shoulders.
- Beards and mustaches are to be clean and neatly trimmed.
- The practice of good daily hygiene, including oral care, is expected.
- Tasteful use of cosmetics and avoidance of excessive application
- Check syllabus for specific clinical information regarding dress code.

**Students are also required to adhere to dress codes required by the agencies and institutions where clinical experiences will be taking place.**

Required Supplies for Clinical
- Stethoscope
- Manual blood pressure cuff
- Penlight
- Bandage scissors
- Analog watch
APPENDIX L
BLOODBORNE PATHOGEN POLICY AND EXPOSURE GUIDELINES

OBTAINING MEDICAL CARE FOR EXPOSURES
A. When an exposure occurs: Wounds and skin sites that have been in contact with blood or body fluids should be washed with soap and water; mucous membranes should be flushed with water. There is no evidence that the use of antiseptics for wound care or expressing fluid by squeezing the wound further reduces the risk for HIV transmission. However, the use of antiseptics is not contraindicated. Use of caustic agents, e.g., bleach, is not recommended.

B. Medical Evaluation: It is very important that medical evaluation take place immediately because treatment decisions must be made within two (2) hours after exposure. HIV prophylaxis for high-risk exposure appears most effective if started within 2-4 hours. It is also extremely important to evaluate the donor’s risk status immediately.

C. Medical Evaluation Facilities: The student should report IMMEDIATELY to the nearest emergency room associated with the clinic or office where the incident occurred for the initial evaluation. Follow-up can be done at your primary health provider. The student should notify his/her supervisor immediately. The supervisor and student should fill out the appropriate clinical facility form.

D. Insurance: The insurance ID card should be shown when medical evaluation is needed. If the medical facility needs further verification of coverage, they can contact AIG, Educational Markets, at 1-888-622-6001. Their office hours are Mon. through Fri. from 8:00 am to 5:00 pm (Mountain Time).

E. Laboratory Testing/Treatment:
   a) To determine whether treatment of the student is necessary, blood must be drawn from the patient/donor to evaluate Hepatitis B, C, and HIV status. Call the Infection Control Nurse or Nursing Supervisor to order these tests on the patient/donor. The Infection Control Nurse (7 am to 4 pm) or Nurse Supervisor (after hours) should review the medical record, question the patient/donor about risk factors, and obtain the patient’s/donor’s consent to do the tests necessary to evaluate their health status.
   b) If the exposure occurs in an outpatient setting (and these tests cannot be done), send the patient/donor to Student Health & Counseling (SHAC) with the exposed student for evaluation.

F. For more information on testing and treatment decisions or protocols:
   UNMH Epidemiology: 505-272-9722 (phone) or 505-951-3000 (pager)
   PALS line, Infectious Disease physician on call: 505-272-2000 or 1-888-UNM-PALS (1-888-866-7257)

Adapted from X:\Handouts\Patient Handouts\Blood Body Fluid\Medical Care.doc
(Revised 05/12/16)
APPENDIX M
BLOOD AND BODY FLUID EXPOSURE
NEEDLESTICK INSURANCE COVERAGE

Blood & Body Fluid Exposure/Needle-Stick Insurance Coverage
Insurance coverage is mandatory for all UNM students who are at risk for body fluid and blood-
borne pathogen exposure. National Union Fire Insurance Company of Pittsburgh, PA
underwrites coverage. Services are coordinated by AIG, Educational Markets.

Benefits & Coverage
Coverage is for academic-related exposures only. No referrals needed. Covered in any
geographic location in any medical facility. No deductibles. Maximum benefit payable: $21,000
per exposure. 100% reimbursement for physician visits, lab tests done on the student and the
patient/donor involved in the exposure, emergency room visits, if necessary, and medications
necessary to treat exposure.

Coordination of Benefits
This provision allows the plan to coordinate payment of benefits with other medical policies
under which the insured is covered so that the total benefits paid under all available policies will
not exceed 100%. It is the intent that this plan be primary to any other medical insurance under
which the insured is covered. The Non-Duplication of Benefits does not apply if you do not have
any other medical insurance.

Cost for 2016-2017
$30 per semester / per student

Information & Questions
Inquiries about the Plan and Payment of Claims: Call AIG, Educational Markets at 1-888-622-
6001. Office hours are Monday – Friday, 8:00 am – 5:00 pm (Central Time). Website:
www.studentinsurance.com (check eligibility/claims status)

Enrollment / Effective Date Questions
Call UNM Student Health & Counseling at (505) 277-7949. UNM Student Health &
Counseling (SHAC) SERVICES: Visit http://shac.unm.edu/ or call SHAC at (505) 277-3136.
Testing and Treatment: For OHS or ER Consult, call (505) 272-2000; or the PALS line, 1-888-
866-7257.

August 2016
Filing Claims
  A. If the student is seen at Student Health & Counseling (SHAC), claims will be filed by SHAC.
  B. The student is required to file all claims for services incurred outside SHAC. The student must submit a claim form (available at SHAC or from the address below) and a *UNM Notice of Incident Form* (available in the student’s dept. or at SHAC, or online at http://policy.unm.edu/common/documents/6150-exhibit-d.pdf). The student will fill in the necessary info, have the attending physician complete his/her portion of the forms, attach all medical & hospital bills, and mail to the address below: Educational Markets Mail Center P.O. Box 26050 Overland Park, KS 66225 Bills must be received within 90 days of service to be considered for payment.

Enrollment
  1. All students enrolled in the UNM-Taos School of Nursing will submit their information to Barb Wiard, Administrative Assistant. She will appropriately forward the information on to AIG, Educational Markets for the students to be enrolled for coverage under this plan.
  2. The student’s UNM account will be charged the premium for this plan as a “needlestick fee.”
  3. The student will be given the plan coverage details and an exposure explanation (yellow) card. These will be sent to the student’s department administrator for distribution.

Eff. 7/14/14; X:\Handouts\Patient Handouts\NeedleStick-InsuranceWebFlyer_14-15.doc
APPENDIX N
MEDICATION DOSAGE CALCULATIONS AND PRECLINICAL REQUIREMENTS

Overall Goal
Nurses need to be proficient in math in order to calculate correct medication dosages for the safety of the patients. UNM-Taos Nursing students must pass a medication dosage calculation and abbreviations exam by 90% accuracy, i.e. 18/20, by the second attempt in order to proceed to the clinical area.

Specific Requirements
A. This content is not taught during class time and is the responsibility of the student to learn outside of class time.
B. Students are expected to do their own individual work.
C. Students may use only the School of Nursing's simple calculator (no programmable electronics nor other reference materials may be used).
D. Students will show their work and write down their own answer.
E. There will be 20 questions involving calculations following the blueprint below.
F. A maximum of 60 minutes are allowed to complete the test.
G. The following dosage calculation rules will be followed for this requirement:
   1. Follow general mathematical rules for rounding: 0-4 round down and 5-9 round up.
   2. Amounts less than 1 will be written with a zero to the left of the decimal.
   3. Extra zeros will NOT be placed at the right of the decimal point at the end.
   4. All tablets are scored in half, so round tablets to the nearest half of a tablet.
   5. Volumes less than 1 mL will be rounded to the nearest hundredth (two places).
   6. Volumes 1 mL-10mls will be rounded to the nearest tenth (one place).
   7. Volumes greater than 10 will be rounded to the nearest whole number.
   8. For all weights the final answer is rounded to the nearest tenth (one place).
   10. All IV hourly rates round to the nearest tenth.
   11. All IV drops per minute rates round to the nearest whole number
H. Students may review the test only at the appointed time and place.
I. Students are responsible for meeting with faculty about remediation and exam retake
J. Arrangements will be made to take the second dosage test, if necessary.
K. The second version will follow the same requirements, outcomes, and blueprint.

August 2016
Expected Outcomes
Prior to clinical each level, the student is expected to:
A. Interpret medication orders and standard abbreviations needed for dosage calculations
B. Convert within and between these selected measurement systems
   1. Metric
      a. Convert weight between micrograms, milligrams, grams and kilograms
      b. Convert volume between milliliters and liters
   2. Household
      a. Convert weight between pounds and kilograms
      b. Convert volume between ounces and milliliters
      c. Convert volume between teaspoons and milliliters
C. Calculate dosages for administration of medications by common routes
   a. Calculate dosages of solid oral medications from 0.5 to 3 tablets
   b. Calculate oral liquid volumes from 0.001 to 30 mL
   c. Calculate injectable medication volumes from 0.001 to 3 mL
D. Calculate infusion rates and times for intravenous administration
   a. Calculate volumes between milliliters per hour and drops per minute
   b. Calculate total/end infusion times for intravenous fluids
   c. Calculate amounts/times to administer IV push medications
   d. Calculate infusion rates/times for IV intermittent infusions (piggybacks)
E. Calculate dosages for administration of medications in tightly controlled situations
   a. Determine dosages based on patient’s clinical data (weight, vital signs or lab results)
   b. Determine if an ordered amount is within a safe/recommended range
   c. Contrast different concentrations of solutions/ratios
   d. Calculate rates/amounts for intravenous medication drips

* The calculations may require conversions as part of the problem.
** The amounts may range from fractions/decimals to thousands of units.
*** Questions asked will be appropriate for the level and the clinical area.
**** There will NOT be information needed or questions asked about specific pharmacology of medications, administration techniques, nor nursing implications in the preclinical dosage calculation requirement. These topics will be covered in theory and/or clinical applications.
Blueprint
(The breakdowns of the cognitive level students are expected to perform.)

A. Examples at the Understanding level (understanding the meaning of information):
   a. How many milliliters are in 2 Liters? (2,000 milliliters)
   b. How many kilograms are in 163 pounds? (rounded to 74.1 kilograms)
   c. What does the abbreviation STAT mean? (Immediately)

B. Examples at the Applying level (use learned information in relevant situations):
   a. The patient needs: Lasix 15 milligrams PO now. The medication is available as:
      Lasix 10 mg (scored) tablets. How many tablet(s) will the nurse administer? (1.5 tablets)
   b. Order: Morphine sulfate 5 mg IM every 4 hours prn pain. Available: Morphine sulfate 2mg/mL. How many milliliters will the nurse administer? (2.5 mL)
   c. A patient is ordered to receive Insulin NPH 30 units every am and 20 units Q hs. How many total unit(s) will the patient receive in 24 hours? (50 units)
   d. There is an order for: Normal saline IV at 125mL per hour. The available IV infusion set has 20 gtt per milliliter. How many drops per minute will the nurse administer? (rounded to 42gtt/min)
   e. A patient has a physician's order for: Kefzol 0.5g IVPB every 6 hours. The manufacturer supplies: Kefzol 0.5g mixed in 50 mL of D5W. The medication drug guide recommends that each dose be administered intermittently over 30 mins. How many milliliter(s) per hour will the nurse set the IV pump to infuse one dose? (100mL/hr)
   f. A patient has an order for: Cefclor 100mg PO every 6 hours. The local pharmacy has: Cefclor 125mg per 5 milliliters. How many milliliter (s) should the patient take for one dose? (4mL)
C. Examples at the Analyzing level (breakdown information for further understanding):
   a. The order is for: Zithromax 400 mg IVPB every day for 2 days. The supplied vial
      has 500 mg of powdered Zithromax with directions on the label as follows:
      Reconstitute to 100 mg/mL with 4.8 mL of Sterile Water for injection. How many
      milliliter(s) would the nurse draw out of the vial to obtain one dose? (4 mL)
   b. The practitioner orders: Vistaril 20 mg IM every 4-6 hours prn nausea for child,
      who weighs 44 lbs. The medication resource indicates that the usual IM dosage
      is 0.5 mg to 1 mg/kg/dose every 4 to 6 hours as needed. Is this a safe dosage
      for this child’s weight? (Yes, this child’s safe range is 10 to 20 mg/dose.)
   c. A patient, who weighs 110 lbs, has an order to begin IV Heparin by hospital protocol.
      The protocol is an IV bolus, then: Infuse the IV drip at 18 units/kg/hour.
      Draw an APTT in 6 hours and call MD with results. The standard heparin available
      from the pharmacy is: Heparin 25,000 Units in 250 mL of ½NS.
      How many milliliter(s) per hour should the nurse set the IV pump for this infusion?
      (9 mL/hr)

Intravenous Fluid Abbreviations

Important IV Terms

✓ gtt: drops
✓ Drop Factor: Number of drops per volume of IV fluid. Varies depending on the tubing used. Usually measured in gtt/mL.
✓ Flow Rate: Measure of the flow of liquid from an IV. Usually measured in gtt/minute (how many drops are released every minute) or in mL/hour (how many mL flow per each hour). gtt/minute is used for manually regulating an IV while mL/hour is used when utilizing an electronic IV regulator.

Important IV Abbreviations

✓ D: Dextrose (in percentage of liter)
✓ W: Water
✓ S: Saline
✓ NS: Normal Saline (0.9% NaCl)
✓ LR: Lactated Ringer’s
✓ K: Potassium (potassium chloride)
Examples:

<table>
<thead>
<tr>
<th>0.9% NS</th>
<th>Normal Saline</th>
</tr>
</thead>
<tbody>
<tr>
<td>O.45% NS</td>
<td>Half Normal Saline</td>
</tr>
<tr>
<td>D5NS</td>
<td>Dextrose 5% Normal Saline</td>
</tr>
<tr>
<td>NS w/ 20meq KCL</td>
<td>Normal saline with 20meq/l of potassium chloride</td>
</tr>
</tbody>
</table>

The Joint Commission Official “Do Not Use” List of Abbreviations

<table>
<thead>
<tr>
<th>Do Not Use</th>
<th>Potential Problem</th>
<th>Use Instead</th>
</tr>
</thead>
<tbody>
<tr>
<td>U, u (unit)</td>
<td>Mistaken for “0” (zero), the number “4” (four) or “cc”</td>
<td>Write “unit”</td>
</tr>
<tr>
<td>IU (International Unit)</td>
<td>Mistaken for IV (intravenous) or the number 10 (ten)</td>
<td>Write “International Unit”</td>
</tr>
<tr>
<td>Q.D., QD, q.d., qd (daily)</td>
<td>Mistaken for each other</td>
<td>Write “daily”</td>
</tr>
<tr>
<td>Q.O.D, QOD, q.o.d., qod, (every other day)</td>
<td>Periods after the Q mistaken for “I” and the “O” mistaken for “I”</td>
<td>Write “every other day”</td>
</tr>
<tr>
<td>Trailing zero(X.0mg)*</td>
<td>Decimal point is missed</td>
<td>Write “X” mg</td>
</tr>
<tr>
<td>Lack of leading zero (.X mg)</td>
<td>Can mean morphine sulfate or magnesium sulfate</td>
<td>Write “morphine sulfate”</td>
</tr>
<tr>
<td>MS</td>
<td>Confused for one another</td>
<td>Write “magnesium sulfate”</td>
</tr>
<tr>
<td>MSO₄ and MgSO₄</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Future Considerations by The Joint Commission

| > (greater than)           | misinterpreted as the number “7” (seven) or the letter “L”                      | Write “greater than”             |
| < (less than)              | Confused for one another                                                          | Write “less than”                |
| Abbreviations for drug names | Misinterpreted due to similar abbreviations for multiple drugs                  | Write out drug’s whole name      |

UNM-Taos School of Nursing
Student Handbook
Amendment A

UNM-Taos School of Nursing/NMNEC
Progression Policy

**Level 1**: One course failure/withdrawal – dismissed from program; must apply for readmission to program. Each school will determine whether readmission is possible based on a number of variables. (Examples of variables: course offerings, faculty availability, seat availability, other). Two course failures/withdrawals - dismissed from program; may reapply after two years.

**Levels 2, 3, 4, 5**: Second course failure/withdrawal - dismissed from program and may reapply after two years.

This policy applies to all nursing courses in NMNEC statewide curriculum degree plans. Course failures and withdrawals cumulate from Level 1 through Level 5 and across all NMNEC programs.
