Success and Celebrations With YOUR Library

YOUR Library’s 14th annual Love Your Library event was a success when you measure the number of people leaving the program with big smiles. Our goal was to bring in performers that would convey a positive message while making people happy, and it seems that goal was met. This event really put the Fun in Fundraiser. It was great to bring the James and Ernie comedy duo back to Taos. James Junes and Ernest Tsosie III have really honed the skill of getting the audience to consider serious issues in such a lighthearted way. It’s quite powerful. And, we love to involve local talent whenever possible so we were honored to have Taos’ own Improv Medicine open up the show. We could fill this page thanking everyone who participated and helped with the event.

One of the other goals of this event is to showcase the UNM-Taos operations in general, and not just YOUR college library. We will say that the UNM-Taos staff and faculty really stepped up, shared their skills and expertise, and donated some awesome raffle prizes as well. So, thank you to everyone who participated and attended this year’s Love Your Library event. It was another true collaboration not only between departments within UNM-Taos but also, with outside community entities such as Taos Pueblo Health and Community Services and El Monte Sagrado.

YOUR college library is under the area called Academic Student Success in the organizational chart. A majority of the time, staff, space, resources, and tools are geared towards assisting every student in achieving the level of success they are striving for. We also see the importance of advocating for strong literacy and critical thinking skills. With that in mind, YOUR college library likes to take advantage of opportunities for engaging in reading activities and literacy promotion such as the annual El Dia de los Niños/El Dia de los Libros originated by the American Library Association. We recognize these children are future college students so starting the love of reading at a young age can be so beneficial. Just as James and Ernie can convey a positive message through humor, YOUR college library can take this opportunity to help make children aware of diverse cultures and languages through the joy of reading.

The Dia celebration is traditionally observed on April 30th but that always seems to conflict with the PARCC testing in the schools so YOUR college library will collaborate with our local schools at some point within that time frame. We look forward to sharing our program with you in the next issue. In the meantime, as we head into the second half of the semester and you start to hit a stumbling block know that YOUR college library is here to help you succeed. And, we can’t seem to say it enough, that because we are a community college we are also a community library. Anyone in our community is welcome to utilize the services and resources we offer so we hope to see you soon.
48) Stable Isotopes Offer Novel Methods of Disease Detection.
Stable isotope techniques developed by geoscientists...

By Josh Knackert

56) Travels in Geology: Roaming the Rocky Coastline of Downeast Maine.
