

**University of New Mexico Taos  
Associate Degree in Nursing (ADN-RN)**

**UNM-Taos reserves the right to make necessary changes as needed.**

The School of Nursing ADN-RN is a two-year course of study after the completion of prerequisite courses. Upon completion of the program, students will be eligible to take the National Council Licensure Examination for Registered Nursing (NCLEX-RN). Student selection, application and cost information are available on the UNM-Taos website listed under the School of Nursing.

In 2016, UNM-Taos adopted the New Mexico Nursing Education Consortium (NMNEC) statewide curriculum, allowing for seamless articulation between associate and bachelor degrees in nursing at participating NMNEC schools ([www.nmnec.org](http://www.nmnec.org)). Students at UNM-Taos are admitted into either the associate degree or the dual associate/bachelor degree program.

Nursing students receive a state-of-the art, well rounded, hands on education which prepares students for beginning nursing practice in a variety of health care settings. The program admits 16 students every two (2) years. With a small class size, there is personal attention from highly educated and experienced Nursing faculty. Clinical rotations are at Holy Cross Hospital and 16 other clinical sites in the surrounding area.

The UNM-Taos School of Nursing has full approval by the New Mexico Board of Nursing. The UNM-Taos ADN program is nationally accredited by the Accreditation Commission for Education in Nursing.
