## University of New Mexico Taos Mini Certificate in 3D Printing

This one-semester certificate is designed for students who want to gain knowledge about 3D printing and hands-on experience using 3D printers. 3D printing is particularly relevant for students in pre-engineering and computer-aided drafting degree programs, but the courses are open to anyone interested in turning a design idea into a real physical product.

3-D printing technology is currently used in architecture, industrial design, the automotive industry, aerospace, the military, engineering, the dental and medical industries, biotechnology, fashion, footwear, jewelry, eyewear, education, and many other fields.

Students must meet prerequisites by achievement of minimum placement scores on the ACCUPLACER or ACT or through completion of course work.

*Students should consult with an advisor prior to enrollment.*

### Core Requirements

Course	Course Title	Credits	Grade	Semester
CAD 171	Computer Modeling & 3D Printing	4		
CAD 191	Introduction to 3D Printing	4		
CAD 294	3D Printing Project	4		

**GRAND TOTAL CREDITS: 12**
