University of New Mexico Taos

Certificate of Structural Integration

Structural Integration (SI) is an advanced form of bodywork and somatic therapy that works with the fascial connective tissues in relationship to gravity. SI was developed by Dr. Ida Pauline Rolf in the 1940's. The program is geared toward current Licensed Massage Therapists as well as instructors of body-centered therapies like Pilates, Feldenkrais and Yoga Instructors. The 510 contact hours of training will meet the International Association of Structural Integration (IASI) requirements for training in the SI Series work. In order to meet training standards in Anatomy, Physiology and Ethics, enrollees may take classes offered through the Medical Massage program or by other similar programs.

Applicants may apply directly to the UNM-Taos Structural Integration Program through the [Structural Integration Website](#).

UNM-Taos reserves the right to make changes as needed. Students should consult with an advisor prior to enrollment.

Core Requirements – 34 credit hours

Course	Course Title	Credits	Grade	Semester
STIN 200	Structural Integration Principles I	3		R:
SHIN 2201	Structural Integration Principles II	3		R:
SHIN 2202	Structural Integration Principles III	3		F:
SHIN 2210	Integration and Practice Session I	2		F:
SHIN 2220	Integration and Practice Session II	2		F:
SHIN 2230	Integration and Practice Session III	2		F:
SHIN 2240	Integration and Practice Session IV	2		S:
SHIN 2250	Integration and Practice Session V	2		S:
SHIN 2203	Structural Integration Principles IV	3		S:
SHIN 2260	Integration and Practice Session VI	2		S:
SHIN 2270	Integration and Practice Session VII	2		S:
SHIN 2280	Integration and Practice Session VIII	2		S:
SHIN 2290	Integration and Practice Session IX	3		S:
SHIN 2204	Structural Integration Principles V	3		S:

GRAND TOTAL CREDITS: 34
